KINGSINE | PARTNERING FOR POWER PERFORMANCE | **metpress** manufacturing since 1974

KF86P

THE LIGHTEST HIGH POWER UNIVERSAL RELAY TEST SET

Smart.
Accurate.
Portable.
Powerful.

- World's Lightest High-Power Universal Relay Tester
- High Precision and Control of Electrical Quantities
- Available in 3 voltage & current models
- 13.3-inch High-Resolution Touchscreen
- Meets IEC 61850 Standard
- Allows testing Protection Relays (Digital, Electromechanical & Static), Merge Unit, Meters, Transducers, etc.

OPERATION & SIMULATION

- Quick relay testing facility in Auto/Manual mode.
- 8x100/1000Mbit Fiber port for IEC61850 SMV and GOOSE simulations.
- Graphical test modules and templates for testing of various relays.
- Shot/Search/Check, Point & Click testing.
- Switch on to fault test (SOTF).
- Variable battery simulator, DC 0~350Vdc.
- Inbuilt GPS and IRIG-B sync end-to-end testing.

ANALYSIS & PROTECTION

- Automatic test results assume, and automatic test report creation.
- Testing results playback scenarios.
- Self-protection for wrong wiring connection, overload, overheat, etc.
- Optional advanced feature includes Transducer Calibration, Energy Meter Calibration, 10 Low-level Analog Outputs up to 8V/20mA max.
- Applying KINGSINE KRT protection relay testing software designed for user-friendliness, multifunctional, and cost-effectiveness.
